

Mobile Foundations for SAP

Extend and enhance your supply chain with SAP-certified mobile barcoding and data collection.

Mobilize Your SAP Supply Chain

RFgen Mobile Foundations is the industry-leading mobile barcoding solution for SAP. RFgen's architecture provides built-in best practices for mobile inventory management with unparalleled security, speed, and flexibility to maximize performance and minimize waste. Lightning-fast mobile apps bring the power of SAP to wherever your people work, online or offline, in the warehouse or in the field.

KEY ADVANTAGES:

SAP-Certified Integration

Supports S/4HANA and 4.6c to 6.05, cloud or on-premises, SaaS or per-user license.

Maximum Data & Device Security

Leverage the highest level of security for your mobile data collection with support for single sign-on (SSO), SSL encryption, offline safeguards, and more.

Low-Code Mobile App Development

RFgen Mobile Development Studio provides built-in low-code mobile app development for rapid in-house creation and tailoring. No deep skillsets needed.

RFgen Features & Capabilities

RFgen Mobile Foundations for SAP can help you unlock new levels of performance, control, and oversight for critical supply chain operations. Mobile apps provide two-way data exchange with SAP and other business systems in real time. Configure pre-built mobile apps for your business or create your own using mobile app templates and low-code developer tools.

- ▶ **Transaction Automation**
Replace manual inventory practices with real-time digital automation and 30% more efficiency.
- ▶ **Workforce Mobilization**
Increase productivity by 30% by bringing end-users to point-of-work, reducing wait and walk time.
- ▶ **Automatic Data Collection**
Drive inventory accuracy to 99.9% with world-class mobile barcoding technology.
- ▶ **Easy to Manage**
Deploy, manage, and support remotely. Device-agnostic software runs on Android, iOS, and Windows.
- ▶ **Continuous Availability**
Industry's best offline data collection solutions for 365/24/7 operations.

"RFgen has eliminated waste in data collection and improved information flow, bringing us one step closer to a true 'perfect' plant."

Eduardo Lozano, Procurement Planning and Control Manager
Grupo Cementos de Chihuahua
